BACHELOR OF ENGINEERING P.E.S. Modern College of Engineering

Field of study Information Technology | **Final grade** 7.94 CGPA

05/2017 Pune, India

XII - MAHARASHTRA BOARD Muktangan English School & Jr. College

Final grade 68.46%

06/2015 Pune, India

X - MAHARASHTRA BOARD Vidya Vikas Vidyalaya Prashala

Final grade 89.2%

● LANGUAGE SKILLS

Mother tongue(s): **MARATHI**

Other language(s): **ENGLISH** | **HINDI**

● PROJECTS

06/2020 – 04/2021

Farmer's Friend Application

- We had developed an Android application for farmers in which farmers could see real-time weather, crop rates, Government Schemes.
- In this application, we have built major modules which were yield prediction and disease detection. Farmers can scan the crop using mobile and get the whole information about the disease and can get the recommendation for pesticides.
- Along with this, we have various modules like Farmer's wallet, Agriculture calendar, Harvesting techniques, nearby soil and water testing centers, etc.

06/2019 – 09/2019

Housing Society Management System

- This system of maintaining a society is made in such a way, so that the most common problem faced in residential societies are solved. This system is a cloud-based system to manage day-to-day activities of any co-operative housing society.
- They require the co-ordination among the respective management societies coupled with the vendors which provides these services so that the appropriate convenience can be provided.
- The main functionality of the system is to provide services like renting, selling apartments and complaint chat box.
